

This is the index of hash of sample documents published as a part of first prototype of the Blockchain certification. The proof of this document can be found on the Bitcoin Testnet chain by comparing its hash with the OP_RETURN field in blockchain transactions confirmed between 1900 and 2000 GMT on February 17th 2019. The SHA-256 hash of the valid index document, prepended by "IITDDOCS " (49495444444f4353 in hex encoding) will be found in one transaction during that period
